

1. Use multi-meter to check the DC $\pm 30\text{V}$ and ± 50 terminal.

DC +30V terminal showed on the multi-meter is about 31V.

DC -30V terminal showed on the multi-meter is about -31V.

DC +50V terminal showed on the multi-meter is about +59V.

DC -50V terminal showed on the multi-meter is about -57V.
